Western, trail and pleasure riders! This clinic is for you!

Learn to give your horse more impulsion and forward energy! Make your horse more responsive for a better ride whether you are on the trail, in the ring, at home or at a show. The better and more correctly your horse goes, the more comfortable you will be!

Heidi will work with every rider to increase hind leg energy through creative use of poles, cones, obstacles and circles. Make your horse comfortable staying on straight lines. Learn how to execute precise patterns and improve your timing of your aids.
